

Voting Procedure

Take your personal device and scan the QR Code

If QR code is not working, use the link that we will share on the slide

The delegate needs to fulfil the voting form including the email address, selecting the name of the delegate who is voting.

Having fulfilled the first part of the voting form, the delegate can vote.

After having completed all the form, the delegate send the form clicking on the proper button.

The delegate will receive the form on the selected email to check that the vote has been registered correctly.

The delegate has one minute to inform the electoral commission in case there is a misleading information of the registered vote.

In that case the commission will delete the vote, and the delegate needs to vote again.

After one minute from the receival of the email, the vote is considered valid and not changeable.

For each vote session the delegate has 3 minutes to vote using the proper form.
